

GARNET E. PECK SYMPOSIUM

The 18th Annual Garnet E. Peck Symposium

"Advanced Manufacturing of Pharmaceuticals"

Thurs-Fri, March 30-31, 2023

Stewart Center & Purdue Memorial Union, Purdue University

This 1½ day Peck Symposium will showcase advances in pharmaceutical manufacturing, with sessions focusing on biologics and small molecules. Presentations include the latest developments on excipients and continuous manufacturing, novel processing technologies, as well as a poster session and 3-minute student thesis competition.

A half-day workshop on pharmaceutical 3D printing will be offered on day two. The topic is **Aprecia's Z-Form Flex In-Cavity 3DP Manufacturing System**. Be sure to join for that as well as it is included in your registration fee.

Registration is now open
