Program Progression Guide

Disclaimer: The 2017-2018 Purdue West Lafayette catalog is considered the source for academic and programmatic requirements for students entering programs during the Fall 2017, Spring 2018, and Summer 2018 semesters. The Program Progression Guide assists students in the development of an individualized 8-semester plan. Students are encouraged to use this guide, myPurduePlan* (online degree auditing tool) and the Student Educational Planner (SEP) as they work with their academic advisor towards the completion of their degree requirements.

Notification: Each student is ultimately responsible for knowing, monitoring and completing all degree requirements.

Base Laboratory Requirement for all Biology Majors

1. Each student will satisfy each of the following three learning objectives:
   Objective 1 – Research planning, literature review, and writing
   Objective 2 – Observation, experimentation
   Objective 3 – Analysis, simulation, and presentation
(continued on back)

1 This course may count for the Biology Selective and as the College of Science Multidisciplinary requirement.
2 This course may NOT count for the Biology Selective and toward the Base Laboratory Requirement. It can only be used for one requirement.

Other Biochemistry requirements and the extra requirements for the Biochemistry Honors Curriculum are on the back of this page.
