What’s New in Science Express?

- Science Express would like feedback from you about the possibility of pre and post assessments being included with some of the equipment and kits we offer. Here is a link to the questionnaire. It is short, we promise!

- Science Express New Teacher workshop will be held here at Purdue July 16-18. You can register for the workshop here. Remember, if you are a current teacher, but would like to be trained on new to you equipment please plan to attend this workshop.

- Science Express Recertification workshop will be held here at Purdue on June 25th and July 15th. You can register for either workshop here.

- Science Express is hosting a half day video analysis workshop at Purdue on June 17th. This workshop will demonstrate the video analysis capabilities of the Vernier LoggerPro software. You will set up and collect video with our flip video cameras, learn how to import that video into LoggerPro, and use LoggerPro perform motion analysis of objects. This software even has the ability to show the center of mass for a system, such as cart collisions on a track. There is no fee for this training. Registration is here. Questions can be emailed to Zach.

- The K-12 Science Outreach team is hosting a professional development (July 23-26): Integrating STEM in the Environment. It requires at least two teachers from each school. The cost is $200/teacher. You will become a GLOBE certified teacher and you will be provided kits with the materials needed to instruct the lessons. Register here. Any questions can be directed to Sarah Nern.

Upcoming Events

- 3/9 – AP Biology-Lab Investigation #3 Workshop, 9:30-3:00 @ Purdue
- 4/6 – AP Biology-Lab Investigation #9, 9:30-3:00 @ Purdue
- 6/17 – Video Analysis Workshop, @Purdue
- 6/25 – S.E. Recertification Training, 8:30-3 @ Purdue
- 7/15 – S.E. Recertification Training, 8:30-3 @ Purdue
- 7/16-18 – New Teacher Training, 8:30-3 @ Purdue

Happenings

- The Project SEED (Summer 2019) program enrollment deadline is April 5. To schedule a day/time for Professor Thompson to visit with your class, please email Sarah Nern by 2/22. The ACS Project SEED guidelines can be found at the following website. Students in this program receive a $2500 stipend for 8 weeks of work (at 40hr/week). The program starts 6/3 and ends 7/20 at IUPUI. More information can be found here.

- Purdue Biology Outreach and the Indiana Association of Biology Teachers (IABT) are offering weekend workshops on AP Biology Labs. You can get more information from this link.

- There is space available for 2 AP Friday sessions (April 5 and April 19). The topic for both sessions is Atmospheric Science. You may sign up here. We are able to provide travel support for you to bring your students and lunch will be provided.
